

# Olatunji Odoula

## Junior Software Developer

I am a motivated and ambitious Software Developer. I enjoy producing clean, test-driven code in a collaborative environment, whilst solving real-world problems. I recently graduated from [Makers Academy](#), where I quickly learnt engineering best practices, tools and methodologies.

## EXPERIENCE

### Makers Academy, Junior Software Developer

April 2020 - Present

During my time at Makers, I learnt:

- The principles of object-oriented design and test-driven development
- How to write and maintain clean, reliable code
- Pair-programming (driver-navigator format)
- How to work in an agile development team with XP values
- Collaborate on GitHub projects with continuous integration and automated deployment

### MOO.com, Lead Technical Recruiter

July 2017 - August 2020

- Responsible for growing MOO Tech, Product and Design teams and championing candidate experience
- Collaborated with hiring managers and developed a data-driven recruitment process
- Managed MOO's relationships with external suppliers such as recruitment agencies, meetup events and careers fairs

### Equal Experts, People Scout

October 2016 - February 2017

- Responsible for sourcing Scala and Java Developers for a high profile public sector client

### Progressive Global Energy, Senior Recruitment Consultant

June 2013 - June 2016

- Responsible for business development within the Oil & Gas sector

## PROJECTS

### [Nah'Mazon](#) — A marketplace for buyers and sellers

Group project involved learning the MERN stack from scratch in 10 days

### [BUNTU](#) — Founder (Jan 2017 - Apr 2020)

Designed and built a mission-led premium water bottle brand on Shopify with limited resources. Sold over 500 bottles to customers via B2C and B2B channels

## SKILLS

### Web Development

Ruby, Rails, Sinatra,  
React, Node.js, Express,  
Javascript, HTML CSS,  
SQL

### Testing

Rspec, Capybara, Jest,  
Jasmine, Enzyme

### Databases

MongoDB, PostgreSQL

### Concepts

XP/Agile methodology  
TDD/BDD  
OOD  
Pair programming  
CI & Deployment  
Git workflow  
Code review  
MVC Pattern

## EDUCATION

### Makers Academy

Software Engineering

Bootcamp

Apr 2020 - present

### University of Birmingham

BEng. Chemical Engineering

2009 - 2012

### St. Francis Xavier Sixth Form College

A-Level: Mathematics,  
Chemistry & Physics

2007 - 2009
